Attn of : GSA Project Manager, CIA Headquarters Expansion Project

Subject: Bid Package No. 2 File A-5 Division 02

STAT :
Chief, New Building Project Office

We have had several conversations with members of your staff regarding the construction of the courtyard located due west of the cafeteria. Our understanding is that all of the existing trees in the area are to remain and that the architect is preparing revised drawings of the courtyard area.

The contractor has indicated that he intends to start installation of the underground drain piping in the courtyard in the near future. If our understanding that the referenced area will be revised is correct, we should have the new drawings to furnish the contractor as soon as possible.

Your assistance in this matter would be appreciated.

Sincerely,

Arthur J. Carlucci
Project Manager
Headquarters Expansion Project
